

Gain flexibility and connect your documents to the cloud

Are you looking to leverage object storage technology within your organization?

Do you want to reduce the cost and increase the scalability of the storage associated to your Folders archives?

Accelerate your IT modernization and benefit from S3 compliant storage units with the new RSD Folders option: **Cloud Storage**. RSD expands your choice of storage by now supporting Amazon S3 (Simple Storage Service), giving you the flexibility to choose where you want to store your business reports and documents.

Discover the **Cloud Storage** connector for Z and open systems*

- **Reliable:** developed in collaboration with existing Folders customers
- **Simple:** easy to define, requires limited effort to maintain
- **Flexible:** manage your content storage across on-premises, cloud, and hybrid environments

Store your content in the cloud, on-premises or both

This new option was developed at the request of existing Folders customers wanting to leverage the object storage technology, to increase scalability and data availability, security and performance.

RSD Folders enables the efficient capture, storage and retrieval of content across on-premises, cloud, and hybrid environments on any S3 compliant storage unit, including Amazon Web Services (AWS). From traditional on-premises file-system-based storage to cloud-based storage, the choice is yours!

ACTION

Need some change to your Folders content storage?

- You want to store the data related to the management of new documents to a S3 compliant storage unit
- You want to replace your Centera storage units with a S3 compliant storage unit
- You want to migrate the data related to the management of existing documents to a S3 compliant storage (move archives on open)

Archive and access unlimited volumes of information

Your company information is valuable and needs to be protected due to compliance and regulatory requirements. If you don't have access to this information or if you manage it incorrectly, it can become a threat to your company.

RSD Folders is a secure document management solution and allows you to rethink the way you archive documents and output streams. It supports the classification of unlimited number of documents whatever the format or source, manages their lifecycle and enables you to access it easily.

Increase the flexibility of your archives storage with Folders and the Cloud Storage connector

Open

- Open APIs and Web Services to facilitate integration
- Source and Format of information agnostic
- Document archive in its original format

High performance

- High speed ingestion rates of large data streams
- Constant response time not relative to database growth
- Scalability on high volume of archives

Easy

- One-Day implementation
- Limited administration through automated rules
- **Cloud Storage Option: flexible data storage on S3 compliant storage units**
